## DETAILED ACTION

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-4, 10-12, 18-20, 23-25 are rejected under 35 U.S.C. 103(a) as being unpatentable over ADMITTED PRIOR ART (Fig 1) in view of Funada et al (6,417,731).

The different between the claimed invention and the PRIOR ART (Fig. 1) is the type of power detector used. Applicant's invention uses peak power detector.

Funada et al. (Fig. 1) discloses the use of peak detecting means, see col. 20 lines 35-54).

Accordingly, it would have been obvious in view of the reference, taken as a whole, to have modified the PRIOR ART (Fig. 1) to have included a peak power detector as taught by Funada et al. Such a modification would have imparted the advantageous benefit of limiting only the peak power is utilized for controlling the amplitude and phase input, thereby suggesting the obviousness of such a modification.

Applicant is advised that the Notice of Allowance mailed is vacated. If the issue fee has already been paid, applicant may request a refund or request that the fee be credited to a deposit account. However, applicant may wait until the application is either found allowable or held abandoned. If allowed, upon receipt of a new Notice of

Art Unit: 2817

Allowance, applicant may request that the previously submitted issue fee be applied. If abandoned, applicant may request refund or credit to a specified Deposit Account.

***Allowable Subject Matter***

Claims 5-9, 13-17, 21, 22 are allowed.

***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

Claims 5-9, 13-17, 21, 22 are allowed over the prior art because none of the prior art disclosed or suggested showing the particular structure and/or operation recited in these claims namely:

Claims 5-9, 13-17, 21, 22 call for, among others, a quantifying the error distortion signal and producing a control signal based on the quantified error distortion signal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
